Vist Habitat Minnesota's blog all about getting ready to vote:

Vote for Home!

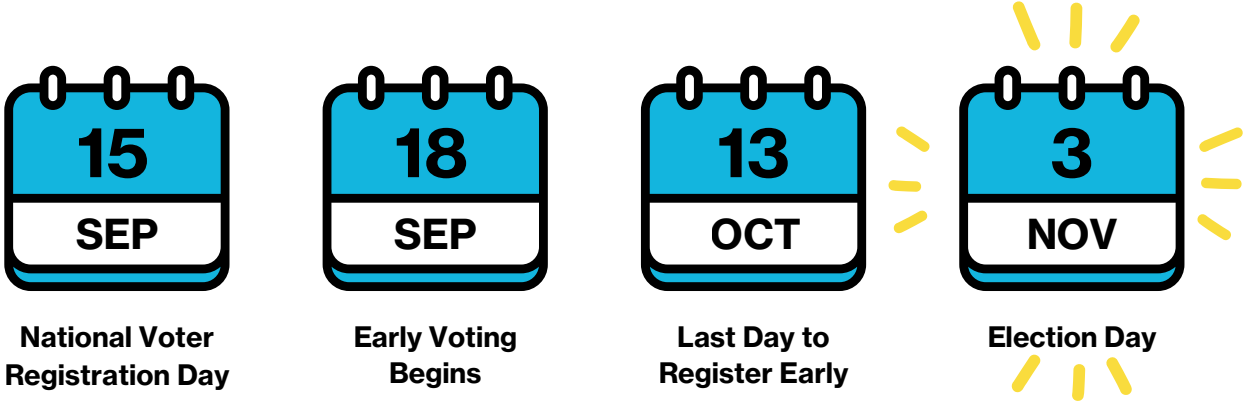

Get Ready to Vote in the 2026 Election

Strong, stable communities are built when neighbors come together to shape the future of their communities. That's why nonpartisan voter engagement is a vital part of our work at Habitat for Humanity.

As we approach the 2026 election, we're committed to ensuring Minnesotans are ready to vote!

Your voice and your vote matter.

Candidate Conversation Guide

Learning more about who is running to represent you and their approaches will help you be better informed to vote for the candidates that support issues that are vital to you and your community. So, whether a candidate comes door-knocking, calls you, or you attend a candidate forum, have these questions handy:

1. **If elected, what steps will you take to increase the supply of affordable homes?**

   The need for housing is significant and growing. More than 1 in 4 households in Minnesota pay more than they can afford on housing. To meet demand, we need 10,000 new units of affordable housing each year.

2. **How will you promote affordable homeownership and expand access to homeownership?**

   Homeownership is key. It's the main way most families build wealth and become financially resilient. Safe and stable housing means children excel in school, workers earn, older adults thrive, and communities prosper.

3. **How will you help homeowners stay stably housed in the face of rising costs, including rising homeowner's insurance premiums and property taxes?**

   It's important that families who already have affordable housing can stay in their homes, but, across the state, homeowner's insurance and property taxes are increasing rapidly, putting long-term affordability further out of reach.

4. **What reforms do you support to modernize zoning to enable homes to be more affordable statewide and improve city tax bases?**

   Bipartisan action to streamline building new homes has recently passed in several states. More homes lower housing costs, strengthen communities, and help meet the needs of Minnesotans.
